EARN ALL 24 SKILL UPGRADES

(Visit any Base Camp in game to view and unlock skills. Details [here.](#))

UNLOCK AND FULLY UPGRADE ALL 4 WEAPONS

(Visit any Base Camp in game to view and upgrade weapons. Details [here.](#))

***NOTES: Lara's Journals** are not marked on the level maps and are not counted in the total number of documents on each level's map key. You will unlock them automatically when you rest at the various base camps. There is a **potential bug** with the Summit Forest Journal entry, so be sure to rest at the first camp in that level. See [here](#) for details.

The second document in the GPS Secrets set can only be found by locating all 75 GPS Caches. Therefore, it may appear in any location. If you find all the caches in order, it will be the third cache in the Research Base level. See [here](#).

There **7 treasure maps listed above are the ones found outside of the Challenge Tombs. You will automatically receive the other treasure maps when raiding the tombs, so there's no need to check them off separately.

***The extra challenge tomb included in the **Tomb of the Lost Adventurer DLC** is not required for 100% completion.

Again, refer to the [walkthrough](#) and [Guide to 100% completion](#) for details.
